

Cryoprecipitate (not pathogen-reduced)

Section	Indications
Blood and blood components	<p>Therapeutic equivalent to cryoprecipitate (pathogen-reduced) for</p> <p>Haemophilia A</p> <p>Therapeutic equivalent to cryoprecipitate (pathogen-reduced) for</p> <p>Coagulation defects, purpura or other haemorrhagic or related conditions</p> <p>Therapeutic equivalent to cryoprecipitate (pathogen-reduced) for</p> <p>Von Willebrand disease</p> <p>Therapeutic equivalent to cryoprecipitate (pathogen-reduced) for</p> <p>Obstetric haemorrhage</p>

Cryoprecipitate (pathogen-reduced)

Section	Indications
<p>Blood and blood components</p> <p>Injection: frozen liquid in bag or lyophilized powder in vial containing:</p> <p>> 50 IU Factor VIII</p> <p>> 100 IU vWF</p> <p>> 140 mg clottable fibrinogen per unit</p>	<p>Haemophilia A</p> <p>Coagulation defects, purpura or other haemorrhagic or related conditions</p> <p>Von Willebrand disease</p> <p>Obstetric haemorrhage</p>

Fresh-frozen plasma

Section	Indications
<p>Blood and blood components</p> <p>Parenteral > General injections > IV:</p>	<p>Blood transfusion without reported diagnosis</p>

Platelets

Section	Indications
<p>Blood and blood components</p> <p>Parenteral > General injections > IV:</p>	<p>Blood transfusion without reported diagnosis</p>

Red blood cells

Section	Indications
<p>Blood and blood components</p> <p>Parenteral > General injections > IV:</p>	<p>Blood transfusion without reported diagnosis</p>

Whole blood

Section	Indications
Blood and blood components Parenteral > General injections > IV:	Blood transfusion without reported diagnosis
