

## BCG vaccine

Section	Indications
<p>Immunologicals &gt; Vaccines</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against tuberculosis</p>

## Japanese encephalitis vaccine

Section	Indications
<p>Immunologicals &gt; Vaccines</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against certain single viral diseases</p>

## Anti-rabies virus monoclonal antibodies

Section	Indications
<p>Immunologicals &gt; Sera, immunoglobulins and monoclonal antibodies</p> <p>Parenteral &gt; Locoregional injections &gt; Intradermal: 40 IU per mL in 1.25 mL vial (human); 40 IU per mL in 2.5 mL vial (human); 100 IU per mL in 2.5 mL vial (human); 300 IU per mL in 10 mL vial (murine); 600 IU per mL in 1 mL vial (murine); 600 IU per mL in 2.5 mL vial (murine); 600 IU per mL in 5 mL vial (murine)</p>	<p>Rabies</p>

## Antirabies hyperimmune serum

Section	Indications
<p>Immunologicals &gt; Sera, immunoglobulins and monoclonal antibodies</p> <p>Parenteral &gt; General injections &gt; unspecified: 1000 IU in 5 mL ampoule</p>	<p>Rabies</p>

## Antivenom immunoglobulin

Section	Indications
<p>Immunologicals &gt; Sera, immunoglobulins and monoclonal antibodies</p> <p>Parenteral &gt; General injections &gt; IV:</p>	<p>Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified</p>

## Antivenom sera

Section	Indications
<p>Immunologicals &gt; Sera, immunoglobulins and monoclonal antibodies</p> <p>Parenteral &gt; General injections &gt; IV:</p>	<p>Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified</p>

## Cholera vaccine

Section	Indications
<a href="#">Immunologicals &gt; Vaccines</a> All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against cholera alone

## Dengue vaccine

Section	Indications
<a href="#">Immunologicals &gt; Vaccines</a> All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against certain single viral diseases

## Diphtheria antitoxin

Section	Indications
<a href="#">Immunologicals &gt; Sera, immunoglobulins and monoclonal antibodies</a> <a href="#">Parenteral &gt; General injections &gt; IM: 10000 IU in vial; 20000 IU in vial</a>	Need for immunization against diphtheria alone

## Diphtheria vaccine

Section	Indications
<a href="#">Immunologicals &gt; Vaccines</a> All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against diphtheria alone

## Diphtheria-pertussis-tetanus vaccine

Section	Indications
<a href="#">Immunologicals &gt; Vaccines</a> All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against diphtheria-tetanus-pertussis, combined

## Diphtheria-tetanus vaccine

Section	Indications
<a href="#">Immunologicals &gt; Vaccines</a> All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against combinations of infectious diseases

## Equine rabies immunoglobulin

### Section

[Immunologicals > Sera, immunoglobulins and monoclonal antibodies](#)  
Parenteral > Locoregional injections > Intradermal: 150 IU per mL in vial; 200 IU per mL in vial; 300 IU per mL in vial; 400 IU per mL in vial

### Indications

Rabies

## Haemophilus influenzae type b vaccine

### Section

[Immunologicals > Vaccines](#)  
All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against single bacterial diseases

## Hepatitis A vaccine

### Section

[Immunologicals > Vaccines](#)  
All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against viral hepatitis

## Hepatitis B vaccine

### Section

[Immunologicals > Vaccines](#)  
All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against viral hepatitis

## Human papilloma virus (HPV) vaccine

### Section

[Immunologicals > Vaccines](#)  
All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against certain single viral diseases

## Influenza vaccine (seasonal)

### Section

[Immunologicals > Vaccines](#)  
All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against influenza

## Measles vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against measles alone

## Meningococcal meningitis vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against single bacterial diseases

## Mumps vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against mumps alone

## Pertussis vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against pertussis alone

## Pneumococcal vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against single bacterial diseases

## Poliomyelitis vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against poliomyelitis

## Rabies vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against rabies

## Rotavirus vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against certain single viral diseases

## Rubella vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against rubella alone

## Smallpox vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against certain single viral diseases

## Snake antivenom

### Section

[Immunologicals > Sera, immunoglobulins and monoclonal antibodies](#)

.

### Indications

Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified

## Tetanus antitoxin

### Section

[Immunologicals > Sera, immunoglobulins and monoclonal antibodies](#)

[Parenteral > General injections > IM: 50000 IU in vial](#)

### Indications

Tetanus

## Tetanus vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against tetanus alone

## Tick-borne encephalitis vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against arthropod-borne viral encephalitis

## Tuberculin, purified protein derivative

### Section

[Immunologicals > Diagnostic agents](#)

Parenteral > Locoregional injections > Intradermal:

### Indications

Mycobacterial diseases

## Typhoid vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against typhoid-paratyphoid alone

## Varicella vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against certain single viral diseases

## Yellow fever vaccine

### Section

[Immunologicals > Vaccines](#)

All vaccines should comply with the WHO requirements for biological substances.

### Indications

Need for immunization against certain single viral diseases
