# **Model List of Essential Medicines**

# BCG vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against tuberculosis
substances.	

### Japanese encephalitis vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against certain single viral diseases

#### Cholera vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against cholera alone

# Dengue vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against certain single viral diseases

### Diphtheria vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against diphtheria alone
Diphtheria-pertussis-tetanus vaccine	

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against diphtheria- tetanus-pertussis, combined
substances.	

# **Diphtheria-tetanus vaccine** Indications Section Need for immunization against combinations of infectious diseases Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances. Haemophilus influenzae type b vaccine Indications Section Immunologicals > Vaccines Need for immunization against single bacterial diseases All vaccines should comply with the WHO requirements for biological substances. Hepatitis A vaccine Section Indications Immunologicals > Vaccines Need for immunization against viral hepatitis All vaccines should comply with the WHO requirements for biological substances. **Hepatitis B vaccine** Section Indications Immunologicals > Vaccines Need for immunization against viral hepatitis

All vaccines should comply with the WHO requirements for biological substances.

# Human papilloma virus (HPV) vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against certain single viral diseases

# Influenza vaccine (seasonal)

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against influenza

# Measles vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against measles alone

# Meningococcal meningitis vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against single bacterial diseases

### Mumps vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against mumps alone

#### Pertussis vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against pertussis alone

#### Pneumococcal vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against single bacterial diseases

### Poliomyelitis vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against poliomyelitis

# **Rabies vaccine**

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against rabies

#### **Rotavirus vaccine**

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against certain single viral diseases
substances.	

#### Rubella vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against rubella alone

# Smallpox vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against certain single viral diseases
substances.	

#### **Tetanus vaccine**

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against tetanus alone
substances.	

# Tick-borne encephalitis vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against arthropod- borne viral encephalitis

# Typhoid vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against typhoid- paratyphoid alone

#### Varicella vaccine

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological substances.	Need for immunization against certain single viral diseases
Yellow fever vaccine	

Section	Indications
Immunologicals > Vaccines All vaccines should comply with the WHO requirements for biological	Need for immunization against certain single viral diseases
substances.
