

BCG vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against tuberculosis

Japanese encephalitis vaccine

Section

Recommendations for certain regions
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Anti-rabies virus monoclonal antibodies

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies
Parenteral > Locoregional injections > Intradermal: 40 IU per mL in 1.25 mL vial (human); 40 IU per mL in 2.5 mL vial (human); 100 IU per mL in 2.5 mL vial (human); 300 IU per mL in 10 mL vial (murine); 600 IU per mL in 1 mL vial (murine); 600 IU per mL in 2.5 mL vial (murine); 600 IU per mL in 5 mL vial (murine)

Indications

Rabies

Antirabies hyperimmune serum

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies
Parenteral > General injections > unspecified: 1000 IU in 5 mL ampoule

Indications

Rabies

Antivenom immunoglobulin

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies
Parenteral > General injections > IV:

Indications

Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified

Antivenom sera

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies
Parenteral > General injections > IV:

Indications

Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified

Cholera vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against cholera alone

Dengue vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Diphtheria antitoxin

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies

Parenteral > General injections > IM: 10000 IU in vial; 20000 IU in vial

Indications

Need for immunization against diphtheria alone

Diphtheria vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against diphtheria alone

Diphtheria-pertussis-tetanus vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against diphtheria-tetanus-pertussis, combined

Diphtheria-tetanus vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against combinations of infectious diseases

Equine rabies immunoglobulin

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies
Parenteral > Locoregional injections > Intradermal: 150 IU per mL in vial;
200 IU per mL in vial; 300 IU per mL in vial; 400 IU per mL in vial

Indications

Rabies

Haemophilus influenzae type b vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against single bacterial diseases

Hepatitis a vaccine

Section

Recommendations for some high-risk populations
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against viral hepatitis

Hepatitis b vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against viral hepatitis

Human papilloma virus (HPV) vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Influenza vaccine (seasonal)

Section

Recommendations for immunization programmes with certain characteristics
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against influenza

Measles vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against measles alone

Meningococcal meningitis vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against single bacterial diseases

Mumps vaccine

Section

Recommendations for immunization programmes with certain characteristics

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against mumps alone

Pertussis vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against pertussis alone

Pneumococcal vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against single bacterial diseases

Poliomyelitis vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against poliomyelitis

Rabies vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against rabies

Rotavirus vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Rubella vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against rubella alone

Smallpox vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Snake antivenom

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies

.

Indications

Harmful effects of or exposure to noxious substances, chiefly nonmedicinal as to source, not elsewhere classified

Tetanus antitoxin

Section

Immunologicals > Sera, immunoglobulins and monoclonal antibodies

Parenteral > General injections > IM: 50000 IU in vial

Indications

Tetanus

Tetanus vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against tetanus alone

Tick-borne encephalitis vaccine

Section

Recommendations for certain regions

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against arthropod-borne viral encephalitis

Tuberculin, purified protein derivative

Section

Immunologicals > Diagnostic agents

Parenteral > Locoregional injections > Intradermal:

Indications

Mycobacterial diseases

Typhoid vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against typhoid-paratyphoid alone

Varicella vaccine

Section

Recommendations for immunization programmes with certain characteristics

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Yellow fever vaccine

Section

Recommendations for certain regions

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases
