

BCG vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against tuberculosis

Japanese encephalitis vaccine

Section

Recommendations for certain regions
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Cholera vaccine

Section

Recommendations for some high-risk populations
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against cholera alone

Dengue vaccine

Section

Recommendations for some high-risk populations
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Diphtheria vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against diphtheria alone

Diphtheria-pertussis-tetanus vaccine

Section

Recommendations for all immunization programmes
All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against diphtheria-tetanus-pertussis, combined

Diphtheria-tetanus vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against combinations of infectious diseases</p>

Haemophilus influenzae type b vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against single bacterial diseases</p>

Hepatitis a vaccine

Section	Indications
<p>Recommendations for some high-risk populations</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against viral hepatitis</p>

Hepatitis b vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against viral hepatitis</p>

Human papilloma virus (HPV) vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against certain single viral diseases</p>

Influenza vaccine (seasonal)

Section	Indications
<p>Recommendations for immunization programmes with certain characteristics</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against influenza</p>

Measles vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against measles alone

Meningococcal meningitis vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against single bacterial diseases

Mumps vaccine

Section

Recommendations for immunization programmes with certain characteristics

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against mumps alone

Pertussis vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against pertussis alone

Pneumococcal vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against single bacterial diseases

Poliomyelitis vaccine

Section

Recommendations for all immunization programmes

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against poliomyelitis

Rabies vaccine

Section	Indications
<p>Recommendations for some high-risk populations</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against rabies</p>

Rotavirus vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against certain single viral diseases</p>

Rubella vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against rubella alone</p>

Smallpox vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against certain single viral diseases</p>

Tetanus vaccine

Section	Indications
<p>Recommendations for all immunization programmes</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against tetanus alone</p>

Tick-borne encephalitis vaccine

Section	Indications
<p>Recommendations for certain regions</p> <p>All vaccines should comply with the WHO requirements for biological substances.</p>	<p>Need for immunization against arthropod-borne viral encephalitis</p>

Typhoid vaccine

Section

Recommendations for some high-risk populations

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against typhoid-paratyphoid alone

Varicella vaccine

Section

Recommendations for immunization programmes with certain characteristics

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases

Yellow fever vaccine

Section

Recommendations for certain regions

All vaccines should comply with the WHO requirements for biological substances.

Indications

Need for immunization against certain single viral diseases
