## Gentamicin

### Section

Ophthalmological preparations > Anti-infective agents  
Local > Ophthalmological > Solution (eye drops): 0.3% (gentamicin sulfate)

### Indications

Other specified conjunctivitis

Infectious blepharitis

## Idoxuridine

### Section

Ophthalmological preparations > Anti-infective agents  
Local > Ophthalmological > Solution (eye drops): 0.1%  
Local > Ophthalmological > Ointment: 0.2%

### Indications

Herpes simplex keratitis

## Kanamycin

### Section

Ophthalmological preparations > Anti-infective agents

### Indications

Therapeutic equivalent to [gentamicin](#) for

Other specified conjunctivitis

Therapeutic equivalent to [gentamicin](#) for

Infectious blepharitis

## Natamycin

### Section

Ophthalmological preparations > Anti-infective agents  
Local > Ophthalmological > Suspension: 5% eye drops

### Indications

Infectious keratitis

## Netilmicin

### Section

Ophthalmological preparations > Anti-infective agents

### Indications

Therapeutic equivalent to [gentamicin](#) for

Other specified conjunctivitis

Therapeutic equivalent to [gentamicin](#) for

Infectious blepharitis

## Ofloxacin

### Section

Ophthalmological preparations > Anti-infective agents  
Local > Ophthalmological > Solution (eye drops): 0.3%

### Indications

Other specified conjunctivitis

Infectious keratitis

## Oxytetracycline

| Section                                               | Indications                                                                                                                                                                                                                                                                                                                             |
