

Ether**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation > solution:

Indications

Anaesthetics and therapeutic gases

Halothane**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation > liquid:

Indications

Anaesthetics and therapeutic gases

Isoflurane**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation > liquid:

Indications

Anaesthetics and therapeutic gases

Nitrous oxide**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation:

Indications

Anaesthetics and therapeutic gases

Oxygen**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation: (medical gas)

Indications

Anaesthetics and therapeutic gases

Sevoflurane**Section**

General anaesthetics and oxygen > Inhalational medicines
◦ Respiratory > Inhalation > liquid:

Indications

Anaesthetics and therapeutic gases
