Sex	All	
Age	Also recommended for children	
Therapeutic alternatives	The recommendation is for this specific medicine	
Patent information	Patents have expired in most jurisdictions Read more about patents. 	
Wikipedia	Artesunate - sulfadoxine + pyrimethamine 	

Summary of evidence and Expert Committee recommendations

Following the review of the age appropriateness of formulations on the EMLc, the Expert Committee recommended: - the addition of a co-packaged formulation of artesunate and sulfadoxine + pyrimethamine on the EML and EMLc, noting that this presentation would replace the separate listings of artesunate 50 mg tablets and sulfadoxine + pyrimethamine 500 mg + 25 mg tablets which are recommended for deletion.
