**Sex**: All

**Age**: Adolescents and adults

**Therapeutic alternatives**: The recommendation is for this specific medicine

**Patent information**: Patents have expired in most jurisdictions

**Tags**: Cancer

**Wikipedia**: Capecitabine

**DrugBank**: Capecitabine

---

**Summary of evidence and Expert Committee recommendations**

In 2015, as part of the comprehensive review of cancer medicines undertaken by the Expert Committee, capecitabine was added to the complementary list of the EML for use in treatment protocols for metastatic colorectal cancer. The relevant extract from TRS994 regarding the Expert Committee's 2015 consideration of treatment protocols for metastatic colorectal cancer is attached.
